TOSSUPS – ROUND 1 Questions mostly by DePauw's Stan Jastrzebski & Sarah Mordan-McCombs

1. This work was once banned from the Boston public library due to explicit language in some of its poetry. Included in the work are such poems as "I Sing the Body Electric", the title poem and "I Hear America Singing". FTP, what is this 1881 seminal collection by American Walt Whitman?

Answer: Leaves of Grass

2. This word refers to the energy released or created along the chemical gradient as elements come into contact with one another. Going roughly from the bottom left to the top right of the periodic table, one ends up with fluorine as the most endowed by this property. FTP, what is this 17-letter chemistry term that also helps to determine the type of bond two elements in a compound will share?

Answer: Electronegativity

3. Schopenhauer's influence on this man's early views can be seen in *The Birth of Tragedy*. A bit of a musician, he was also a fan of Wagner in his early career, but later repudiated him. Perhaps inspired by Karl Marx, he saved much of his harshest judgment for Christianity, calling it "the one immortal blemish of mankind" and labeling it and alcohol the "two great European narcotics." He developed the concept of the superman, or Übermensch, in *Thus Spake Zarathustra*. FTP name the philosopher of *Beyond Good and Evil*, perhaps best known for saying, "God is dead."

Answer: Friedrich Nietzsche

4. All the main characters know is there's a year's supply of pudding in the fridge, and their girlfriends are ticked at them for trashing their house and forgetting their anniversary. To make up with the girls, the guys have to find the anniversary gifts they bought for the occasion. However, that's difficult, due to one large, misplaced object. This leads to the repeating of, FTP, what inane question by Ashton Kutcher and Seann William Scott in the title of a 2000 movie?

Answer: "Dude, Where's My Car?"

5. 28 years after the *Titanic* sank, its senior surviving officer, Charles Lightoller, once again stayed cool in a crisis. During this battle he somehow stuffed 130 sailors onto his private yacht and got them away from harm and German divebombers. Ironically, when German bombers ignited the oil tanks here, the heavy smoke limited further runs and allowed Harold Alexander to lead the heroic evacuation of over 100,000 besieged military personnel. FTP name this beachhead where Allied troops were trapped when France fell early in World War II.

Answer: Dunkirk or Dunkerque

6. His first book, *Atomics for the Millions*, was published in 1947, when he was only 19. He did the lyrics to Carole King's music for an animated film for TV called "Really Rosie," adapted from his book, "The Nutshell Library". He also wrote the often-banned *In the Night Kitchen* and the libretto for an operatic adaptation of his most famous work. FTP, who is this children's author of *Where the Wild Things Are*?

Answer: Maurice Sendak

7. One can most easily factor polynomial functions of the form $(x^2 - a^2)$ using this type of function, although it would not work if the minus is changed to a plus in the original function. Simply take the square root of the first term and then the second term and insert those numbers into terms in the final factored answer and make sure each parenthesis has an opposite sign, one positive and one negative. FTP, if you do this, you have just used what method of factoring useful in the factoring of functions like $(x^2 - 4)$?

Answer: Difference of Squares

January 21, 1978, less than two weeks from concluding the negotiation of these, the Israeli Knesset voted to approve them and to withdraw the Israeli settlements in the occupied Sinai. Also discussed was the future of the still-debated and fought-over West Bank and Gaza territories. FTP, what legislation was the result of these meetings in Maryland between Anwar Sadat, Menachim Begin and Jimmy Carter?

Answer: **Camp David Accords**

9. It is widely misunderstood because it uses logarithms to determine the relative size of what it measures, making a 7 ten times bigger than a 6 in measured amplitude. What's more, that tenfold increase in measured amplitude translates into about a 31-fold increase in the estimated energy released. Still, this adaptation of the already modified Mercalli Scale has become the accepted leader in measuring seismic activity. FTP, name this scale, named for the theoretical physicist who developed it, cited every time there is an earthquake.

Answer: **Richter** scale

10. Plays by this man included "Cataline", "Bartholomew Fair", and "Every Man in His Humor". He was also a poet in the early 17th Century, penning such works as "To Celia." FTP, who was this contemporary and rival of William Shakespeare, who is better known for plays like "Volpone" and "The Alchemist"?

Answer: Ben **Jonson**

11. Classified technically as a form of post-impressionism, one of its great masters called the practice divisionism. The art of using primary-color dots on top of one another to create secondary color dots, this is, FTP, what artistic style, evident in such works as *Saturday Afternoon on the Island of La Grand Jatte*, by Georges Seurat?

Answer: **pointillism**

12. Often overlooked today is its artistic side, which included the sculptors Augusta Savage, Richmond Barthé, and Elizabeth Prophet and painters Archibald Motley, Laura Wheeler Waring, Henry Tanner, and William H. Johnson. Less well-known authors that belonged to this movement included Nella Larsen and Claude McKay. Countee Cullen gets more notice than those two, and Zora Neale Hurston and Langston Hughes still more. FTP, what was this revival of African American literature of the early 20th Century commonly known as?

Answer: **Harlem Renaissance**

13. Ole Romer, working in a Paris laboratory in 1676, was among the first to try to measure this constant. James Bradley made advances to the measurement in 1728 and Michel Foucault bettered Bradley's estimate, but it was not until Albert Michelson's measurement that the debate was finally settled. FTP, what quantity did Michelson determine was equal to 165,355 miles per second?

Answer: **Speed of Light**

4. The term dates from approximately the beginning of the 16th Century, when Spanish explorers named the place after semi-mythical lands located somewhere west of Europe across the Atlantic. Even now, the Caribbean Sea bears an alternate name thanks to the name of the archipelago which it supports. It's commonly divided into the Greater and Lesser. FTP, what is this group of islands that includes Cuba, Puerto Rico, Hispaniola and many smaller islands?

Answer: the **Antilles** [accept Greater Antilles or Lesser Antilles before "Greater"]
